

Psychology Research Methods - Instructions for Paper Rewrite

As stated in the syllabus, students can revise and resubmit the second lab paper to earn back half of the points they missed. For example, if your grade was 90 out of 120, you missed 30 points, and can complete a thorough revision to earn back up to 15 additional points. If your grade was 40 out of 120, you missed 80 points, and can earn back up to 40 through the revision.

Requirements

- Rewrites will be evaluated solely by Mike, not your lab instructor.
- Turn in your prior draft (with comments from your lab instructor) and your rewrite. The rewrite cannot be graded without the prior draft. You do not need to include Paper 1 but may do so if there was an unresolved issue you would like to point out.
- Address all of your lab instructor's critiques – stated or implied – from the original draft. For example, if the lab instructor notes APA style issues but only circles the first three mistakes, be sure to fix any other similar mistakes throughout.
- If you worked as a pair on the prior draft, you can turn in a rewrite as a team or individually. Be sure to note clearly who should receive credit for the rewrite.
- **Turn in the rewrite to Mike by 11:59am on Monday 5/8.** You can drop it off to him at Exam 3 or slide it under his office door (Stern 3070) any time before the deadline. Rewrites submitted to other locations, without the prior draft, or after 11:59am will not be accepted, so plan ahead.
