

### **Flextime**

**Due at the Start of Lab:** None

#### **Rationale for Today's Lab Session**

Students will receive feedback on Lab Assignment 5 and Paper 2. It is a useful time for engaging in decision-making about how best to pursue a desired final grade.

#### **Objectives**

- Gain feedback on Lab Assignment 5 and Paper 2 to ensure understanding of the key issues.
- Finalize any decisions about whether to complete the Paper Rewrite. If completing the Rewrite, make sure to get any clarifying feedback from the lab instructor on any lingering issues.
- Finalize any decisions about whether to complete the Make-up Lab Assignment. Many students will have already made up their minds. However, if someone unexpectedly bombed LA5, they may want to pick up the Make-up Lab Assignment. Use the lab time to work on the case study, if needed.

#### **Dismissal**

- Students can be dismissed once they have received LA5 and Paper 2, have gained any feedback needed for the optional paper rewrite, and have gained any useful input on the optional make-up lab assignment.
